

## 2017 Independent Oil & Gas Directory of Kansas

### *23rd Edition of the Red Book is now Available*

The new, updated **2017 Independent Oil & Gas Directory of Kansas**, or commonly referred to by many as the **RED BOOK**, is now being distributed to those who pre-ordered. New book orders are now being accepted.

This is the 23rd Edition of the most widely used petroleum directory in the state of Kansas. The Red Book is valued and known for its comprehensive, up-to-date listings of over 4,300 individuals and businesses who make up the oil and gas industry in Kansas.

The 632 page directory includes a complete "**General Listing**" alphabetized by name. Each listing provides an address, phone and fax numbers, e-mail and website addresses, and a brief description of type of services provided by each company. Each company profile includes a list of key personnel, personal cell phone number and e-mail if given, and branch and field offices. The directory also includes 2,186 licenced operators and drillers, 558 service companies, 130 supply companies, 252 well servicing firms, 353 independent geologists / geophysicists / petroleum engineers, and much more.

The new Red Book also contains a convenient, helpful yellow-page "**Service Section**" with 859 indexed service categories to choose from when looking for a particular service, supply, or piece of equipment for your daily operations. This section provides company names under each category, including city location and telephone numbers.

Another useful feature is a cross-referenced "**Key-Personnel Section**" which provides an easy look up for key personnel should you forget the company name but know a particular individual. Each individual name is listed and cross-indexed with their company affiliation and telephone number.

The Red Book is very convenient in size - measuring 6" wide x 7" length x 1.5" thick, with durable plastic comb binding. It fits easily in a glove box or brief case.
