

Flatlander Dirtworks Serves the Oil Patch

Serving Kansas and Southern Nebraska

Flatlander Dirtworks LLC has been in business since 2007, offering excavating services for every industry. They provide sales and delivery of multiple types rock, sand, crushed concrete, asphalt millings, egg rock, fill dirt, and black dirt (topsoil). They are also a dealer for cattle guards and culverts all lengths and sizes. They have their own rock crusher and screen to make its own material of crushed concrete, sand, and rock to deliver all over central and western Kansas and southern Nebraska.

Flatlander provides complete dirtwork services to the oil and gas industry, including excavating, grading, pumping unit and tank battery installs and roustabout work. The company operates dozers, trackhoes, loaders, backhoes, trenchers, scrapers, winch and boom trucks, dump trucks, belly dumps. The firm can build access roads, pads, dikes, pits, and haul in rock. They provide turn key well hook-ups from digging location, to setting tanks and pumping units, and trenching in lines. The company sells new and used pumping units, Hess Fiberglass tanks, and PVC pipe of all sizes for lead lines, water lines and electric line conduit.

Company office is located at 1514 200th Avenue in Hays, Kansas 67601. To schedule your work needs, call owner Joel Younger , (785) 623-7744, anytime 24 hr service. Visit Flatlander's website at: www.flatlanderdirtworks.com.
